

WILDLIFE WORD GAMES

Discover the hidden words to reveal the mystery animal

Word Search Directions

Find and circle the four words listed below to learn why butterflies are so important. The words may be hidden in any direction within the puzzle.

Unscramble Directions

Unscramble the three arrangements, one letter in each square. After you have unscrambled, arrange the circled letters to reveal the mystery animal!

BUTTERFLIES

Butterflies aren't just beautiful, they're also crucial for our planet. They help pollinate many plant species, and as bee populations drop, butterflies become even more important for ensuring plant health. They are an important food source, with nearly two-thirds of all invertebrates connected back to butterflies on the food chain. And finally, they are an effective natural pest control which limits the use of pesticides that pollute our environment.
