Independent Auditor's Report

To the Audit Committee
Conservation International Foundation

Report on the Financial Statement

We have audited the accompanying statement of cash receipts and expenditures – cash basis of The International Bank for Reconstruction and Development (the Bank)/Global Environment Facility Funds (the Program) of Conservation International Foundation and Affiliates (collectively, CI) for the year ended June 30, 2019, and the related note to the financial statement.

Management's Responsibility for the Financial Statement

Management is responsible for preparation and fair presentation of this financial statement in accordance with the cash basis of accounting described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the receipts and disbursements of the Program of CI for the year ended June 30, 2019, in accordance with the cash basis of accounting described in Note 1.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 of the financial statement, which describes the basis of accounting. The financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter – Report of Summarized Comparative Information

We have previously audited the Program's June 30, 2018, financial statement, and we expressed an unmodified audit opinion on that audited financial statement in our report dated November 14, 2018. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2018, is consistent, in all material respects, with the audited financial statement from which it has been derived.

Restriction on Use

This report is intended solely for the information and use of the Audit Committee, Board of Directors and management of CI and for filing with Global Environment Facility Council and the Bank as trustee of the Program and is not intended to be and should not be used by anyone other than these specified parties.

Conservation International Foundation and Affiliates – The International Bank for Reconstruction and Development/ Global Environment Facility Funds

Note to the Financial Statement

Note 1. Nature of Activities and Significant Accounting Policies

Nature of activities: Conservation International Foundation and Affiliates (CI), founded in 1987, imagines a healthy, prosperous world in which societies are forever committed to caring for and valuing nature for the long-term benefit of people and all life on Earth. By building upon a strong foundation of science, partnership and field demonstration, CI empowers societies to responsibly and sustainably care for nature for the well-being of humanity.

Much like CI, the Global Environment Facility (GEF) believes that every person on Earth deserves a healthy environment and the fundamental benefits that nature provides. Since its inception in 1991, the GEF has improved the lives of billions of people while creating conditions for sustainable development. By investing in the planet, the GEF is investing in the human capital of this generation and of generations to come. Bringing together 183 countries in partnership with international institutions, civil society organizations and the private sector, the GEF is the largest public funder of projects to improve the global environment. The GEF channels funding through GEF agencies, which are responsible for assisting eligible governments and nonprofit organizations in the development, implementation and management of GEF projects.

In 2013, CI became one of the first nonprofit organizations to be accredited as a GEF agency. As such, CI directly assists national governments in incorporating global environment concerns into their policies, programs and projects. As an agency of the GEF, CI disburses funding for global conservation and sustainable development initiatives.

During 2019, CI received funding from three separate GEF funds, as noted below:

GEF Trust Fund: The GEF Trust Fund was established on the eve of the 1992 Rio Earth Summit to help tackle our planet's most pressing environmental problems. GEF funding to support the projects is contributed by donor countries. These financial contributions are replenished every four years by the GEF's 39 donor countries.

GEF funds are available to developing countries and countries with economies in transition to meet the objectives of the international environmental conventions and agreements.

Capacity Building Initiative for Transparency Fund (CBIT): As part of The Paris Agreement of 2015, parties to the United Nations Framework Convention on Climate Change (the Convention), established in 1992, agreed to establish a Capacity-Building Initiative for Transparency. The goal of the CBIT is to strengthen the institutional and technical capacities of developing countries to meet the enhanced transparency requirements of the Paris Agreement. These enhanced transparency requirements are defined in Article 13 of the Paris Agreement. The Paris Agreement requested the GEF to support the establishment of the CBIT through voluntary contributions during GEF-6 and future replenishment cycles. Following COP 21 (the Convention), the GEF established the CBIT with high levels of donor support and engagement of stakeholders and countries within a year. Transparency and accountability are a key pillar of the Paris Agreement, and the CBIT will help developing countries, pre- and post-2020, strengthen their ability to meet this essential element of the agreement. This builds upon the GEF's provision of support to non-Annex I Parties to fulfill their obligations under the UNFCCC, including National Communications and Biennial Update Reports.

Conservation International Foundation and Affiliates – The International Bank for Reconstruction and Development/ Global Environment Facility Funds

Note to the Financial Statement

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Special Climate Change Fund (SCCF): The Special Climate Change Fund was established under the Convention in 2001 to finance projects relating to adaptation; technology transfer and capacity building; energy, transport, industry, agriculture, forestry and waste management; and economic diversification. This fund should complement other funding mechanisms for the implementation of the Convention (Decision 7/CP.7). The GEF, as an operating entity of the Financial Mechanism, has been entrusted to operate the SCCF. In 2004, the GEF Council approved a programming document, which provides the operational basis for funding activities under the SCCF (GEF/C.24/12).

CI is committed to working with all governments and engaging with all sectors in society to achieve our ultimate goal of improved human well-being, particularly focusing on the essential services that nature provides such as fresh water, food, health, livelihoods and climate resilience.

A summary of GEF Funds' (the Program) significant accounting policies follows:

Basis of presentation: The accompanying statement of cash receipts and disbursements – cash basis for the year ended June 30, 2019, is prepared based on the cash receipts received and disbursements paid during the year for the Program. The cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP); therefore, the statement is not intended to conform with U.S. GAAP. Receipts are reported when collected rather than when pledged/earned, and disbursements are reported when paid rather than when incurred.

Prior year information: The financial statement includes certain prior year summarized comparative information but not by function. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Accordingly, such information should be read in conjunction with the Program's financial statement for the year ended June 30, 2018, from which the summarized information was derived.

Subsequent events: CI evaluated subsequent events through December 18, 2019, which is the date the financial statement was available to be issued.
