Section 1. Instructions and General Guidance

1.1 Introduction

CI, the Contracting Entity, is soliciting offers from Offerors to submit proposals to carry out Consultancy services to develop Protected Area Management Plans and develop capacity in PA management planning

OBJECTIVES:

The consultancy will support the project by developing Management Plans for Mt Legumau and Mt. Fatumasin PAs. This work will be guided by Timor-Leste’s Program of Work on Protected Areas (PoWPA), the existing PA Management Plan for Nino Konis Santana National Park and the national PA System Plan (plano nacional). The two protected areas at Maunt Fatumasin and Mount Legumau are situated within the Comoro River catchment and the Irapere River catchment, respectively. The locations of the PAs have been identified and the project is working with government and community members in defining the specific PA boundaries, zoning plans, land use, and management interventions.

It is important that the development of the Management Plans be participatory, with community and government stakeholders taking a de facto role in the decision-making processes and the development of the plans. Established approaches such as the Conservation Standards are expected to be used. Alongside the development of the plans train a cohort of approximately ten
government staff in PA Management Plan development using established adult learning techniques so they can go on to independently develop further plans and transfer this capacity to others. This work results in two key outputs; a set of PA management plans (for the two PAs) and a team of PA management planners with the capacity to further develop Timor-Leste’s PA network.

This RFP does not obligate CI to execute a contract nor does it commit CI to pay any costs incurred in the preparation and submission of the proposals. Furthermore, CI reserves the right to reject any offers, if such action is considered to be in the best interest of CI.

1.2 Offer Deadline
